

# Anchors GP LLC

CAPABILITY STATEMENT

## Technology, Cloud, Cybersecurity, AI & IT Professional Services

UEI: UJTRC9UP61P6 | CAGE Code: 1Z840 | NAICS: 541511 (Primary), 541512, 541519, 541330, 541690, 541990

### WHO WE ARE

Anchors GP LLC provides enterprise-level technology services for public-sector, education, and commercial organizations. We build, modernize, secure, and support software systems, cloud platforms, and AI-enabled workflows. Our team brings technical depth from AWS, Amazon, Walmart, and Deloitte to deliver engineering standards required by government agencies and prime contractors.

### DIFFERENTIATORS

**Enterprise Engineering Depth:** Hands-on experience from AWS, Amazon, Walmart, and Deloitte delivering systems for millions of users and high-availability requirements.

**Government Systems Experience:** Direct experience architecting state government systems integration for PennDOT to facilitate NMVTIS data exchange across all 50 states.

**Legacy Modernization Expertise:** Proven ability to execute complex migrations, refactor legacy code, and reverse-engineer business logic for core enterprise government applications.

**AI Delivery Capability:** Experience building scalable backend systems for LLM training platforms and integrating generative AI and RAG workflows.

### PAST PERFORMANCE / KEY PERSONNEL EXPERIENCE

**Pennsylvania Department of Transportation (PennDOT):** Key personnel led systems integration for NMVTIS-related data exchange across all 50 states. Technologies: Java, Spring Boot, Hibernate, RESTful APIs, Oracle, and Vue.js.

**County of Orange:** Key personnel modernized a core enterprise government application, including an Angular 11 to Angular 19 migration, legacy code refactoring, and reverse engineering of business logic.

### CORE TECHNICAL SERVICES

- Custom Software Development
- Cloud Engineering & DevSecOps
- Cybersecurity & Systems Integration
- Automation & AI Systems Support
- Website & Digital Platform Support
- IT Staffing & Staff Augmentation

### KEY PERSONNEL

#### Samuel Luswata, CEO

10+ years experience (AWS, Amazon, Deloitte). Specialist in cloud-native systems, microservices, and government data integration.

#### Loquan Seh, Sr. Software Engineer

20+ years experience (Warner Bros, JP Morgan). Expert in Angular modernization and legacy government application refactoring.

#### Dan Ahimbisibwe, Software Engineer

8 years experience (Scale AI). Specialist in scalable backend systems for AI/ML and GenAI/RAG integrations.

### GOVERNMENT READINESS

- SAM Registered
- California Small Business Certified (SB)
- Prime & Subcontractor Ready
- Federal Contract Ready
- NAICS: 541511 (Primary), 541512, 541519, 541330, 541690, 541990
